GRNTLEMEN: A recent trial of your R. Rehef for Rheamatism proves it to be a sovereign remedy. About lonvecks ago! was seazed with Lumbago, and quite mable to stand up. I purchased from Mr. McPherson, a bottle of R. K. Kellef, rubbed my back welland otharned immediate relief. The next morning! fell pain in my hip joint, and in a few days it became considerably enlarged. I was airaid to try more of the Rehef, lest it should drive the pain to a more vital part his the body, but as the pain in my joint, knee and ancle became so exermating, I got another bottle of Radway, and applied it, and washed my whole limbs with it; and I am happy to say with complete success. The intense and musual cold at this season, I feel has the effect of remewing the pain, but one application of the Ready Relief will banish it. Could! I keep my feet warm at all times, I would have nothing to fear from the Rheumanism after applying your Ready Relief. I shall occasionally draw attention to the efficacy of your medicines, the result of experience.

Let the Ready Reliet be applied externally on the chest and around the throat—this will effect an important and wonderfully seneficial result, it will get up a powerful counter-irritating force, and withdraw from the Blands of the throat all cougested blood that may interfere with the respiratory organs. Persons troubles with asthma, hard and difficult breathing, sharp pans when taking a long breath, will find immediate relief after an application of Radway's Ready Rebief. In cases where the lungs are diseased, we give Radway's Resultiven. The action of this medicine resolves away the diseased deposit—it heals all ulcors, and temoves tubercles. We have known persons who had no idea of ever rising out of a sick bed, to be restored to sound health, with not a particle of consumptive material left in their bodies to hasten decay.—Radway's Regulators in these cases keep the system regular, and equalizes the circulation of the blood.

It must not be supposed that all these gentlethem are not. They have scorned to bend the knee to Beal; or to place themselves upon a level with the "greasy multitude," by taking the oaths together in every time of storm and disaster. the "rag, tag and bobtail" of parties.

But though not affiliated members of the party, yet there are many persons who think that they are in spirit and in trnth Know Nothings, and nothing but Know-Nothings. They are judged by their acts. They have ever been bitter and proscriptive haters of the Democratic party. Since the rise of Know Nothingism they have uniformly voted with that party-talked for them-advised with them-and contributed money for their success. They curse foreigners and Catholics-believe the mob of "bloody Monday" acted right-talk flippantly of "ten cent Jimmy"-and believe everything that is published in the Louisville Journal.

These are the gentlemen who make up the clique of some fifteen or twenty who compose the "old line Whigs" of Louisville. Their respeciallity no one questions. The yaucity of their numbers with their lofty assumption of political power, is laughable, and indeed ridicu-

And these are the gentlemen who called an "old line Whig meeting" on Saturday night last, and who again met in solemn conclave yesterday. At the announcement of both meetings, the Know Nothings looked quizzical, and the Democrats langhed out-right.

Saturday night found a "small and select party" of them at the Histrionic Hall on Jefferson street, known as "Fillmore and Donelson Headquarters," and amongst them were those "disthese two gentlemen because they were the oraand distinguished pervices to the Whig purty, and to show that Know Nothingism had nothing to do with the meeting.

The "old line Whiggery" of Mr. Nicholas will be doubted by none, although the Journal of a few days siece vouc' ed for him as being an 'old line Jeffersonian Democrat." As an evidence, however, of his Whiggery, we cite the public to the extraordinary "rise and fall" of the gentiman as a Whig partizan in this city-to his learned and elaborate 'book' in favor of throwing high-die for the Presidency-to his manifesto

He advised the disbandment of the Know Nothing party. (His hearers were nearly all Know the working of this principle, but you might hothings.) lie was emphatic as to the failure of the party. It had not paid expenses. It was reobscured by clouds. These troubles are accidents

It would make Buchanan President if persisted party, hatred, animosity and fraternal strife are in. Democratic Candidate for Vice President of the

We are indebted to the Hamilton (Obio) Telegraph for a verbatim report of the able and cloquent speech of Mr. Breckinridge at Hamilton, Ohio, on the 2nd of September-

Mr. President, Ladies and Fellow-citizens of Ohio. I confess to you that I am equally astonished and gratified at what I witness here in Ohio to-day, and I wish that my exhausted strength and broken frame would allow me to express more fully the emotions which swell my breast. I find upon your banuers principles which I cor-dially adhere to, and if these are the patriotic sentiments which animate this assembly may write your chart of prinples and I will

I have been welcomed cordially by you to-day —I have been treated like a brother—I have been cheered and encouraged on all sides. I feel that we are all citizens of a conmon country, and joint heirs of the same glorious inheritance [Cheers.] My friends, I do not rise to make a speech in the ordinary acceptation of that term. I am physically unable to do so, and, being on my way to accept an invitation in a sister State, must reserve some of my exhausted strength. Fellow:citizens, I am not here to-day to speak harshly of any man or of any party, but I must express my convictions in regard to public affairs and I claim at least this, that I express my sentiments with equal frankness in every part of our common country. I need not say to you, fellow-citizens, that I belong to the Democratic party— that I cherish it as being most in accordance with the principles of our political system. You know what these principles are, and I feel that this

demonstration is due to the great cause which I past few days as to what steps they could take to represent. It has been a subject of inquiry why it is that the Democattic party has survived shock after shock and yet maintaius an unbroken front to every foe. It is a fact that organizio after organization has died and the old Demomen are sworn members of the "order." Some of cratic party has remained a witness and a monnment of their faith. [Cheers.] Why is this? I find that the Democratic party holds a few plain and simple principles, which enable it to hold which were merely intended to catch and hold testsevery question by the Constitution. It holds to no blind fanaticism. It refuses to use the Constitution in the cause of aggression upon a particular people, and in the cause a of heedless fanaticism. It admits and observes all the stipnlations as they are written in the common bond of our Union, and must live as long as the Constitution itself shall last. These were the feelings

which animated the breasts of our fathers.

Coming down to a later day, the same philosophy tanght the Democratic party to oppose the National Bank and go against the Tariff, and at a still later day to array itself against the American or Know Nothing party. I have no words of vindictiveness or hate to use toward any man or any party, but I speak the honest sentiments of my heart. I mean no rudeness to any member of that organization. The Democratic party are obliged to oppose the Know-Nothing party. It claims that every citizen of our country stands upon an equality in the eye of the law. It was obliged to oppose that feature which interposed between a man's conscience and his God. The Democratic party turned to the Constitution and found the principles in it and they held that upon this new and viegin the atre all the people of the Old World might come andtake a part. I know that thousands of good men went into that party for the preservation of the Union and the good of our common country. But the delsrium is over—the fever is past, the patient is sane again. [Cheers.] All I have to easy is that the rise, progress and decline of

men to heware how they interpose betwen the numan conscience and its God. The Democracy was also equally obliged to array itself against the so-called Republican party of the United States. They charge us with being the pro-slavery party, and say that the obet of that party is to extend slavery over the territo.itories of the United States. Fellow-cittinguished old Line Whigs," ex-Chancellor S.S. | izens, it is not so. I have no connection with Nicholas and Gen. Wm. S. Pilcher. We mention any party which proposed to extend slavery over the territories or any where else. But I do belong to an organization which says our Contors of the occasion-because of their well-known stitution was made to secure certain rights to all our citizens, and among those the right of all our people to form their own institutions and their own laws, subject only to the Constitution of the United States. I know your opinions in Ohio. I know you are satisfied with your institutions and the state of society here; and has kentucky any objection to your society? Not at whom it concerns. If gentlemen want to agitate yer, Evansville. Ind all. She will not intervere. this party should be forever a warning to all

any particular State of Territory.

The cause of all the present troubles arose from the organization of certain Territories. The Democratic party knows that I gave cordially my vote for the Nebraska Bill. I voted for it because it opened up to settlement a vast territory, and then announced that the inhabitants were capable of managing their own affairs, subject only to the Constitution of the United States; and when they present themselves for admission, I would rote for their admission without the slighter qualification, founded upon any doctrine to which I was favorable or to which I might be opposed.
Is it true that the Democratic party is undertaking to legislate slavery where it does not new in 1849 in favor of the emancipation of the slaves of Kentucky, and to his luminous and voluminclares that it is not its perpose either to legislate ous articles in favor of the North and Freesoil, it into or exclude it from the Territories, but to let the people settleit for themselves. Make them assail that principle, and they will "bite a file." The doctrine upon which this Government is founded, is that the people are perfectly free to form their own institutions, and that this freedom stands on an equality with every other municipa right. I hold it to be a principle which underlies our system of Gevernment, and a principle the violation of which led to the American Revo-Intion. It is the same principle which ran through onrold confederation and which rans through

But "old line Whiggery" was not satisfied. It met again yesterday at the Know Nothing Headquarters, and snrrounded itself with a panoply of dignity and respectability, by calling Chan"all governments derive their just power from the "all governments derive their just power from the constitution must protect every man in his right to "life, liberty and the pust power from the power from the constitution must protect every man in his right to "life, liberty and the pust power from the constitution must protect every man in his right to "life, liberty and the pust power from the pust power from the constitution must protect every man in his right to "life, liberty and the pust power from the pust power from the constitution must protect every man in his right to "life, liberty and the pust power from the pust power from the constitution must protect every man in his right to "life, liberty and the pust power from the pust power from the pust power from the constitution must protect every man in his right to "life, liberty and the pust power from the pust po consent of the governed," and that is the principle embedied in the Kansas act. I wish our fathers had given a little more prominence to that sen-timent. On it the Democratic party rests, and rests impregnably. Take a party without such notions of government—give it power, and it would rush along like a rapid drama to a fatal onr country rapidly to destruction. But why do I speculate npon what it would do? If I have a right, I would never forget to call your attention to the men who founded this Govnment, though they may be now called "old gies." Remember the last warning—the last apporation of Washington to his country was o frown indignantly upon any attempt to sever Winchester, Clark co., the ties that bind the cherished parts of our country together. In the words I utter he warned them to frown upon any attempt to array part Owingsville, Bath co., against part, and, in my humble judgment, the Republican party satfor the portrait, and Wash-

ngton painted it in living colors.
Fellow-citizens: I have gone no longer than I intended, but let me call your attention to the teachings of other men. Clay, who loved his whole country with as lofty a nature as God ever conferred upon man, again and again warned his countrymen of the rising storm. He said the purpose of a growing party would be to array one portion of the country against another, and eprecated it as the greatest calamity that could befall this country. He said all harmony would be destroyed, and the Abolitionists would start back in horror and dismay at the dire confusion they had made. And Jackson, who loved his country not less than any, living or dead, pointed, out the cause which would probably lead to a dissolution of the Union. He depicted the dangers which would arise from civil war. He said that if the memory of common interests and common glories were not sufficient to hold this Inion together, strife and convulsion would folow: some military adventurer would arise, and the people would at least surrender their liberty for the sake of repose. Is this party justified in anything that Webster has said? They can find no justification in the sayings of any of these men. Washington, Jefferson, Madison, Clay, Webster -- these patriots are now a constellation in the skies, shall we walk by their calm light, or shall we be guided blindly by the leaders of this new party? Look at those who have served their country longest and best. They have protested against this movement as calculated to destroy the peace of the country. The most llustrions, the most eminent, are found arrayed

Make no excuses—don't dodge— meet them upon the facts and tell them we can preserve this Union only by adhering to the ond of our Union, and we intend to do it .-Applause] All else is as nothing compared with the boundless disasters which would follow this Confederacy were destroyed.

Fellow-citizens, Kentucky lies locked up in the heart of the Union. She could not go out if she would, and would not if she could. She borwould, and would not if she could. Doctor James Williams:—For severs years past, I have been hable to attacks of Dyspepsia; but never have I been more distressingly affileded with its symptoms, than within the last iew weeks. Indigestion, nervous irritability, despondency, a sense of weigat in the stomach, and severe pains in the left side, rendering use, for the time being, truly wretched. Forthastelly, I was recommended by a friend to try your Elixir. I did so, and in tess than two weeks, undigestion ceased; pain and nervous depression left me, and appetite, will mental and bodily health, were fully restored. To me the cure seemed almost miraculous, and my object in writing to you us—a hope that other persons suffering the miseries of Dyspepsia will avail themselves of your efficient remedy.

Dall VS Inhaling Vapes is used in the cure of discases of the Lungs. Worn on the breast, the heat of the body causes an evaporation, which will be constantly inhaled by the patient, passing gently into all the air cells and passages of the lungs, and supplying every part with a southing and healing vapor, while the patient is taking Daily's Extract of Ginsing or Honey Syrup, for the cough and debility, and his Balsam of Wahoo, for the impure state of the blood. It is acknowledged by all hast by inhaling marsh miasma, or nozious vapors or air, the lungs become diseased. Is it not equally true that, supplying the lungs with an invigorating and healing medicine, will restore them to health?

Dr. Daily keeps on hand a general supply of Painily Medicines of his own compounding, to cure diseases incident to our climate. Daily's Family Practice, 324 pages, price five dollars, can be had at Daily's Pain Extractor Depot, No. 78 Second street, between Market and Jefferson.
